Standard and Low Profile Tantalum Capacitors

- · General Purpose SMT Chip Tantalum Series
- 100% Surge Current Tested
- 17 Case Sizes Available, Standard and Low Profile Down to 1mm Maximum Height
- CV Range: 0.10 2200µF / 2.5 50V
- J-Lead Construction

APPLICATIONS

- General Low Power DC/DC and LDO
- Entertainment / Infotainment Systems
- · Height Restricted Design

LEAD-FREE COMPONENT

^{11) -} Dry pack option (see How to order) is recommended for reduction of stress during soldering. Dry pack parts should be treated as MSL 3. Moisture Sensitivity Level (MSL) is defined according to J-STD-020. All technical data relates to an ambient temperature of +25°C. Capacitance and DF are measured at 120Hz, 0.5V RMS with a maximum DC bias of 2.2 volts. DCL is measured at rated voltage after 5 minutes. For typical weight and composition see page 259. NOTE: KYOCERA AVX reserves the right to supply higher voltage ratings or tighter tolerance part in the same case size, to the same reliability standards. *Initial Limit
